SUMMARY

Highly professional full-stack developer with 4 years of experience, passionate about developing innovative and efficient web applications. Extremely strong at frontend and backend development utilizing JavaScript and Python frameworks such as React.js, Flask, Node.js and Express. I constantly seek to improve my skills and stay up-to-date with the latest web development trends and technologies. I want to work in a team where I can learn a lot from other teammates, brainstorm, and collaborate to build market-leading products.

EDUCATION

Bayero University Kano (BUK) • Kano, Nigeria

B.sc Statistics • Class of 2024

CERTIFICATIONS

- Certified Software Engineer
- Quality Assurance Certification

PROFESSIONAL EXPERIENCE

Lead FrontEnd Developer

The House of Sounds | 2022 - Present

- Engineered and implemented a hierarchical project management system, fostering seamless team collaboration with integrated communication and file-sharing capabilities.
- Developed and integrated a budgeting section, enabling users to allocate funds efficiently across various projects, tasks, and subtasks.
- Spearheaded the creation of an innovative AI-powered songwriting tool, introducing features such as the Flow Recorder, genre-specific lyric pad, and rhyme suggestion, revolutionizing the songwriting process.
- Integrated a robust social media system, enhancing user engagement and providing fans with a behind-the-scenes look into the creative processes of their favorite artists.

Web Developer Intern

Barnksforte Technologies Limited | 2022 - 2023

- Assisted in building the official web application for the National Population Commission.
- Conducted research and prepared reports on various topics related to the company's operations and industry trends.
- Designed captivating and responsive front-end interfaces, ensuring optimal user experiences
- I developed a comprehensive dashboard leveraging my statistical knowledge background and utilized React.js as my development framework.

Junior Software Engineer

Weblule | 2020 - 2021

- Boosted information sharing by enhancing interfaces between computer systems.
- Evaluated and adopted new technologies to address changing industry needs.
- Developed flowcharts and diagrams to describe and lay out logical operational steps.
- Resolved malfunctions with systems and programs through troubleshooting.
